STREAMLINER

The New Everbearer Brings Sensational Results

**ENORMOUS SIZE BUT NEVER HOLLOW
EAT DELICIOUS BERRIES 60 DAYS AFTER YOU
SET OUR PLANTS**

Berries sell for 45c a pint in stores and roadside markets, all summer and fall.

We are always on the outlook for a better Strawberry, especially an everbearing variety. There are many very good varieties like Mastodon, Gem, Wayzata, and Minn. 1166 (now named EVERMORE). They are all mighty good in every way. HOWEVER, we have never seen a more beautiful Strawberry than the STREAMLINER. It's almost round, with a small hull, and of enormous size. Even larger than the famous Mastodon. The STREAMLINER will ripen up even, to the prettiest bright scarlet color, which will attract customers' attention every time. Sweet as honey, with very little acid.

BEARS 60 DAYS AFTER SET

Set STREAMLINER plants during March, April or

May, and you will be picking those big, sweet, juicy beauties 60 days later. Think of it—no waiting a whole year for berries. When late killing frosts come in October or November the plants will still be loaded with green and ripe berries, and even blossoms. It will take a good hard frost to stop them.

BEARS 3 CROPS IN 18 MONTHS

Then the following June, you will again harvest a full crop, just like an ordinary Strawberry, and with good care they will keep on bearing till late into the fall.

STRONG, HARDY GROWER

STREAMLINER is a thrifty, strong, and hardy grower. Does well on most any soil, and seems to do well in both wet and dry seasons. Perfect flowering, and needs no other variety to pollinize it. You will just have to try this variety to know how wonderful STREAMLINER really is. STREAMLINER is not going to take the place of MINN. 1166 (Evermore), but will be tough competition.

Bruns Marvel is not a market berry. It's strictly a home use variety, and should be in every garden. Berries are not large, however they are large enough, and the main feature of this variety is its MILDNESS. Folks who "Cannot Eat Strawberries" on account of rash, tell us that this variety does not affect them this way. Give it a try. 250 plants of any everbearing varieties of Strawberries will supply fresh fruit for family of five all summer and fall, first year set. You will find Bruns Marvel in many of our collections in just the right amount.

Bruns Marvel
Everbearing

Superfection

EVERBEARING STRAWBERRY

Bears 60 days after you set our strong healthy plants.

PLANT SUPERFECTION IF YOU HAVE HEAVY CLAY SOIL.

This is the newest thing out in everbearing Strawberry varieties. We do not believe that it's better than any of the other varieties we list. It grows a lot like the Gem variety that we have discarded in favor of SUPERFECTION. It will, like all the everbearers that we list, bear fruit in 60 days after set, and produce 3 crops in 18

months. This variety will do better on heavy clay soil than any variety we have. Fruit is large, red all the way through. A little more irregular in shape than Streamliner, however, they make a beautiful package when picked. Excellent for freezing or canning because they are so firm. Under all tests it's been proven to be the most rugged and hardiest of all. Set plants in April or May, and by July 15th they will be in full production. Ripe berries, green ones, and beautiful large white blooms all at the same time. From bloom to a ripe berry takes 30 days. **Prices below to left.**

Minnesota 1166

Now Called
"EVERMORE"

**At Last! An Everbearing Strawberry That Has Everything—Starts Bearing 60 Days After Set and Continues Bearing Till Heavy Frosts—
3 CROPS IN 18 MONTHS!**

Minnesota 1166 is a large, long-pointed berry, produced on long-branched fruit stems, well hidden under the leaves for good protection. The color of the fruit is on the dark red order, and a solid red clear through the berry, even when the berry is still not quite ripe. Nearly as mild as Bruns Marvel.

Minnesota 1166 is just as productive as any everbearing Strawberry we have grown, and makes a good quantity of plants. For best results in fruit production, we recommend that the runners be pinched off as fast as they appear in the summer. It's a strong grower, resembling the Missionary variety. The fruit is attached to a fine green hull that will not pull out even when the berries are dead ripe. This, with the small amount of juice this variety contains, will make it the very best jam berry ever introduced. This variety has been known to keep 5 days without refrigeration, and never mold or spoil in the hottest weather. It will dry up like a raisin before it will spoil. This will make it the coming commercial variety, as most other everbearing varieties will not keep long after picked.

Minnesota 1166 berries shipped to the South Water Street market in Chicago this summer sold for \$7.50 per 24-pint crate. Once you have tasted Minnesota 1166 berries you will eat no other kind. We know, for we grow all the varieties and at our table we choose the Minnesota 1166 every time.

MASTODON EVERBEARING

- MASTODON—Bears Until Heavy Frosts
- MASTODON—Grows Without Special Care
- MASTODON—The Oldest Everbearing Variety
- MASTODON—Bears 60 Days After Set

Mastodon has been with us for about 20 years, and in all these 20 years we have never known them to fail on a full crop 5 to 6 months long the same year they are set out. The size of the berry is like Streamliner—very large. It is of very good quality, red all the way through, and fine flavor. Bears as heavy as Streamliner, and makes many new runner plants. These new runner plants will also bear toward fall, and then you have a real picking row. This wide row will make fine picking next June as a spring berry. Mastodon does not require any special soil, care or petting. They grow most anywhere, or on any soil that will grow garden or potatoes. They sell like "hot cakes" on roadside stands, or on any market. It will take a hard freeze to stop Mastodon from bearing. White frost will never hurt them at all. A field of Mastodon in full bearing in late November is a sight never to be forgotten. Even after a light snow one can go out and find ripe berries unharmed.

LESS DISCOUNTS

SENATOR DUNLAP

Senator Dunlap is an old well known variety that has made more dollars for berry growers than any other variety. It will grow most anywhere and on any kind of soil. However, it will do best on heavy, rich soil. If planted on light soil, be sure to set them 2 feet apart. On heavy soils set them 18 inches apart. Berries are dark red, firm, and sweet. Wonderful for canning and freezing as well as fresh.

ROBINSON

Largest June Bearing Strawberry Known

HIGHEST QUALITY. These big round blunt-pointed berries are of top quality. They are borne on large thick fruit stems, that are protected with a heavy foliage that makes up a wide fruiting and picking row.

The tangy rich sweet flavor is found in no other Strawberry. ROBINSON is the largest berry we have to offer. It's late—starting to ripen about the time Premier is finishing up. By planting Premier for early and Robinson for late, you will have fresh fruit from start to finish, over a 30-day period. 18 to 30 berries will fill a quart box. Berries have a firm skin, and are solid all the way through, making it a good shipper as well as a good home use variety. You will like Robinson.

PREMIER

The Most Famous Berry Ever Introduced

Premier Strawberries sold as high as \$11.50 per 16-qt. crate on the Benton Harbor, Mich., Wholesale Fruit Market.

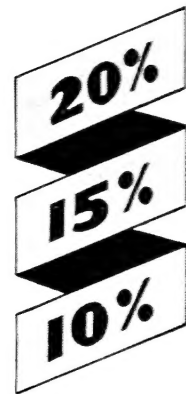

If you plant STROMER'S PREMIER you will get the first berries on the market. They will be bearing heavily before other varieties begin. Your biggest picking will be when berries are in good demand and are bringing top prices. Premier will grow anywhere. The plants are sturdy and long rooted, a good drought-resister. The berries are very large, and hold their size to the last picking. The flavor cannot be beaten.

Premier is as near frost-proof as any Strawberry can be. Premier sets the standard in Strawberries like Latham and Cumberland do in Raspberries. You cannot go wrong.

SODUS PURPLE RASPBERRY

COLLECTION No. 9
 25 Sodus. 1 yr.
 25 Morrison. 1 yr.
FOR ONLY \$5.00
 50 Fine Plants, Worth \$7.50
 NO DISCOUNT

This variety of Purple Raspberry is by far the largest and best of them all so far. Purple Raspberries are a cross between the reds and the blacks. The parents, DUNDEE and NEWBURGH, have long been discarded, but the offspring from these two varieties is a winner. The fruit is very large, firm, fine flavor (you can detect both flavors in SODUS), beautiful purple color, and ships well. As fresh fruit it's simply delicious. Freezes well, and makes the most beautiful jelly. The plants are vigorous, very productive, and hardy. It ripens shortly after Latham, and bears for about a month. It favors the black Raspberry, in plant growth, and should be pruned like one. Why not try a dozen to start with. This will make a family size patch.

WHY WAIT A YEAR FOR FRUIT?

MORRISON

LARGEST BLACK RASPBERRY GROWN

Many Berries as Large as a Quarter

Morrison is fast becoming the highest ranking commercial Black-cap. It's a rank grower, and produces immense, round, jet-black fruit of the highest quality, both for fresh, canning, freezing, or jams. You cannot beat it. Cumberland is good but Morrison is better. It will bear twice as much fruit as Cumberland will, because the bushes are twice as large. Morrison is about a week later to ripen than Cumberland. Berries will hang to the bushes a week after they are ripe. Easy to pick. Easy to grow. MORRISON is not too new as this is the sixth year we have been growing it. It's "Time Tested" by this time and is here to stay. Get started this year. Plant some, even if it's only a dozen in the garden. Twelve plants will produce enough fresh fruit for an average family. Plant Morrison for late crop. Plant 3 1/2 by 7 ft. apart. Plant in March, April and May. The earlier the better. FREE planting directions sent with the plants.

Mortgage Lifter

NEW EXTRA EARLY BLACK RASPBERRY

This is a brand new variety. However, it has been grown for a few years and well tested out by Mr. John Peterson of Michigan. The original plant was found growing wild along a fence row in this county. It was discovered by O. K. White, a plant inspector, working out of the office of the State Department of Agriculture at that time. Mr. White dug the plant up, and gave it to Mr. Peterson to try out and grow. It took Mr. Peterson three years to get a good supply of plants. We will be the only nursery to have it for sale. The plants are grown by Mr. Peterson from the original stock and you will be sure to get true-to-name stock. We are offering them in 1-year and 2-year-olds. MORTGAGE LIFTER is jet-black, EXTRA early. Sweet as honey. Strong grower.

Not quite as large as Cumberland, but plenty large to make a very attractive box of fruit. It demands the highest price on the market as it is 10 days earlier than other varieties like Cumberland. You will be through picking MORTGAGE LIFTER by the time Cumberland comes on. Order early, as the stock of plants is still limited. When we are sold out of them, your money will be refunded, or rebooked for fall of 1950 if you wish.

CUMBERLAND

The Business Blackcap

This is without question one of the most profitable and popular Black Raspberries ever grown. It is the one safe and reliable commercial variety because you can depend on a big crop regularly. We call it the "Business Blackcap" because it succeeds on all soils and produces its big crops year after year.

We have never known Cumberland to fail, and the best proof that it is a profitable variety is the fact that the demand for plants is greater every year and more Cumberland are planted than all other varieties combined.

Cumberland is perfectly hardy and tremendously productive. The berries are extra large, glossy black, and not equaled by any other variety in quality, flavor or appearance, except Morrison. Whether wanted for market or home use, we can recommend Cumberland to our most exacting customers. Disease-free. Twice state-inspected plants.

Plant Cumberland for midseason, MORRISON for late, and MORTGAGE LIFTER for extra early, and you will have berries for a month long. Set plants 3½ by 7 ft. apart. March, April and May are the planting months. The earlier the better. Require well-drained ground. FREE planting directions sent with plants.

LOGAN

Logan early should be in every garden and commercial planting, as it is an extra early ripener. Planted along with Cumberland it lengthens the fruit season and increases profits. Logan Blackcaps are round, glistening black, and of very firm quality. Sweet and juicy, they are desirable for fresh desserts, canning, etc. Plants are hardy growers, very thrifty and resistant to drought. Plant in March, April, and May. **Prices to left.**

LATHAM

The Commercial Growers FIRST CHOICE

Latham is to Red Raspberries what Premier is to Strawberries. An old standby that grows anywhere on most any type of soil, and so hardy that it will stand 45 degrees below zero. Latham berries are large, often an inch in diameter. Best all-around berry to grow for a late red. Cans well, and fine for freezing. The plants grow large and tall. Holds the load of fruit well when trimmed back to 30 inches tall each spring. Plant

Sunrise for real early, Latham for late, and Indian Summer for late everbearing, and you will have fruit all summer and fall. Set Latham plants $3\frac{1}{2}$ ft. by 7 ft. apart. March, April and May are the best planting months. Plant soon as ground can be worked. 25 plants will plant a row 85 feet long, and plenty for average family.

INDIAN SUMMER

BEST EVERBEARING RED

This new two-crop or everbearing Red Raspberry was introduced by the New York Experiment Station several years ago, and has been well tried out, and proven a success, both as a one-crop bearer, and also as an everbearer. The fall crop is borne on the new growth. The fall crop will start in September and continue till frost late in the fall. Berries are large, conical shape, firm, few seeds and sweet. Fine shipping quality. The plant is a husky grower, perfectly hardy, and resistant to common diseases. Bears midseason to late fall. We offer both 1-year and 2-year-old plants in this variety.

SUNRISE EARLIEST Red Raspberry

SUNRISE will make a good fruiting row in less time than other varieties of reds. Grows shorter and more stocky. Holds up well under the load of fruit.

The **OUTSTANDING NEW RED RASPBERRY** originated by the U. S. Department of Agriculture has now been christened **SUNRISE**. It comes to fruit growers with many advantages over older sorts.

DR. DARROW and **PROFESSOR CLARK** described the new berry in the U. S. Department Circular 397. It originated as a cross between Latham and Ranere. Among other things they say: "Of most importance about **SUNRISE** from the standpoint of the practical grower perhaps are:

- 1—"HARDINESS and RESISTANCE to disease."
- 2—"EARLINESS and LARGER SIZE of the berry as compared with Ranere."
- 3—"BETTER TEXTURE and QUALITY of the fruit compared with Latham."

Extra early. Extra fine flavor. **SUNRISE** will grow and produce farther south than any other Red Raspberry known. Still it is perfectly hardy in all northern states, and some parts of Canada.

THORNLESS! RED RASPBERRY

**PLANT CANES ARE SMOOTH AS A GRAPE
VINE—BERRIES LARGE AS LATHAM**

Canes are smooth as a Grape vine. Absolutely thornless. This new early wonderful thornless Red Raspberry comes into bearing while Strawberries are still on, when Red Raspberries are selling at their highest prices. It's a week ahead of any other variety. Lengthen your fresh fruit season by adding a few plants of this Thornless to your collection. Berries are borne in large clusters, many ripe at one time. Fruit not quite as large as Washington, but just as sweet and good. Small seeds, and will not crumble when picking like so many early varieties. Excellent either eaten fresh, canned or fresh frozen. Keeps its color well. Plants a year old stand up stocky and sturdy like a little tree. THORNLESS plants are a scarce item.

**All of the Good Qualities of the Regular
Boysenberry BUT NO THORNS**

This is the early ripening strain of Thornless Boysenberry with canes as smooth as a Grape vine. RIPENS TEN DAYS TO TWO WEEKS EARLIER THAN BOYSENBERRY. The introducer claims even heavier yields from this Thornless Boysenberry than the common Boysenberry. This new strain Thornless Boysenberry is identical to the Boysenberry except that there are no thorns and it ripens earlier. This is a very good feature as the early berries bring more money. The Thornless is just as hardy, rugged and heavy bearing as its parent, the Boysenberry. Vines grow 25 feet long, and this pretty apple-green vine loaded with giant purple beauties is a sight you will never forget, and after you taste a handful of them, other berries will go begging for a while. Delicious with cream and sugar, and when made into jam, it's the last word. Supply of plants still limited, so hurry.

GOLDEN QUEEN RASPBERRY

A beautiful, large, golden yellow Raspberry. Many prefer this fine variety to any of the reds or blacks, owing to its sugary sweetness and unsurpassed flavor. Should be in every garden, its beauty and high quality placing it at the head for table use. The canes are hardy, vigorous growers, and heavy croppers. Grows like a Red Raspberry and should be handled like one. Ripens with Latham. Our bearing age plants will bear fruit this year. Both size plants will bear full crops in July, 1951.

GIANT

CULTIVATED

EASY TO GROW. Each year as we learn more and more about growing the HYBRID cultivated Blueberries, we find that they are not near as fussy about what kind of soil they will grow on, as we did a few years ago. Of course they prefer a rather moist acid soil, but we also find that they will grow on other soil too, by adding some peat moss, old leaves or sawdust with the soil. Sulphur and water them well during dry spells.

The Cultivated Blueberry is a rather DWARF growing plant. A plant 15 years old will not be over 6 ft. tall, but it will be the same size in circumference. They grow in a ball shape plant, and their roots are all very near the top of the soil, so they must be cultivated very shallow. Set the plants 5 ft. apart each way, and keep clean by frequent cultivation. Hoe all weeds away from the plants. We offer 2-yr., 3-yr., 4-yr. and 5-yr.-old plants. All of these sizes have some buds. You can expect 2 to 6 quarts of fruit from a 5-year-old plant the year after set, when it becomes well established. Even the 3-year-old plants will bear some fruit the same year set.

We offer for sale 'JERSEY', 'RUBEL' and 'RANCOCAS' varieties. These are the three best ones. The RANCOCAS is early. Then comes RUBEL, and for late it's JERSEY. JERSEY bears the largest berries. All are excellent quality, and go well together on account of pollenization. You may order by name or leave it up to us to select the varieties for best pollenization. If you order only two plants we will ship you two varieties.

Commercial growers please write for special prices on lots of 50 to 1000.

RED LAKE CURRANTS

This new, better and extra hardy large red Currant comes from Minnesota. This Red Lake is the last word in Currants and you will really want a few plants of them even if you think you have plenty of Currants already. Produce long, large, red clusters that make up into excellent jelly. Ships well and is the best commercial variety to grow.

PIXWELL GOOSEBERRIES

This new Gooseberry was originated at the North Dakota Experiment Station. It picks well, and that is why it was named PIXWELL. The berries hang on slender stems about 2 inches below the branches.

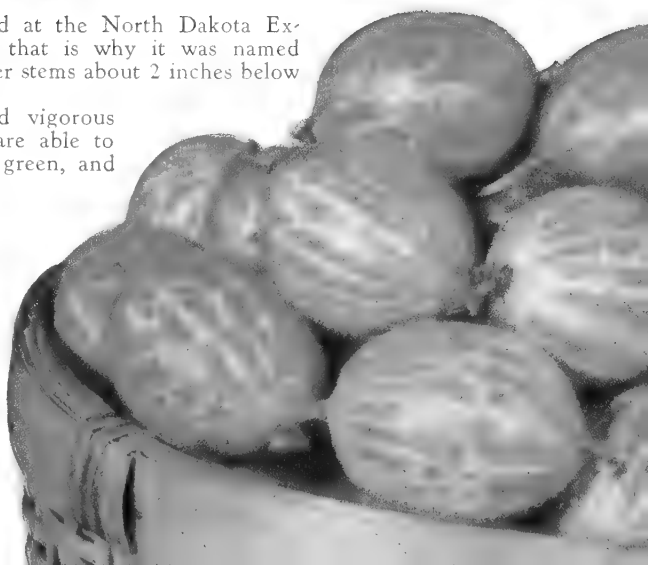

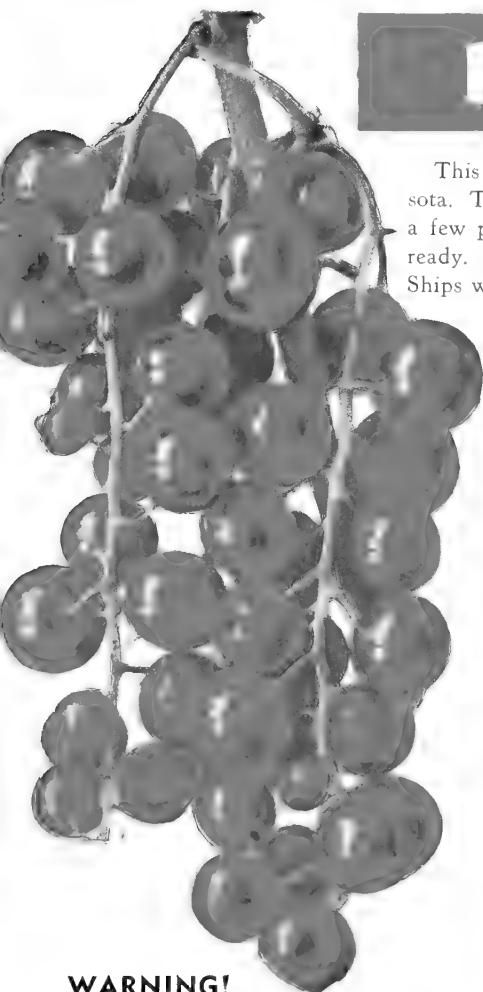

It is absolutely hardy, and a good vigorous grower, producing large bushes that are able to carry the load of fruit which is light green, and turning to a pink when fully ripe.

Foliage colors up in late summer, and makes a very beautiful ornamental bush, so it can be worked in a landscape job, serving as both ornamental and useful in bearing the Gooseberries to make that delicious pie.

We offer this year strong 2-year-old bearing age plants. Each 95c; 3 for \$2.75; 6 for \$5.35; 12 for \$9.85; 25 for \$17.50; 50 for \$30.00. LESS DISCOUNTS.

WARNING!

In planting any trees, shrubs or plants, NEVER put any commercial fertilizers or fresh manure in the hole. Place a small handful of fertilizer around the tree after it is set.

CONCORD

Concord is beyond a doubt the most popular blue Grape. More Concord are planted than all other varieties. It is the commercial table and wine variety. Concord is perfectly hardy, having stood 30 degrees below zero without injury. Does well on any soil, but makes the sweetest fruit on light sand that has been well fertilized. Bunches are large, compact and well shaped. Sweet and juicy. Vines grow fast, and bear second year. We have greatly reduced our prices this year on Concord. We have an extra good crop of this variety, and can offer them to you in four sizes. The last two sizes are ready to bear fruit.

CACO

This is the new quick-growing, young-bearing, delicious, sweet, big red Grape that is so popular. It has no equal as a home-use table Grape. It has a peculiar characteristic found in no other Grape, in that it is rich in flavor. Its deep, wine-red color is so pleasing to the eye. A vine full of these rich red beauties is a sight. Ripening in September as they do, the crop will be harvested long before killing frosts.

DELAWARE

The Sweetest Grape of All

Very rich fine flavor. Juicy and tender. Color is a clear pink, becoming nearly red when fully ripe. It's the favorite eating Grape, and being fully as good for jelly, juice or wine. Delaware is the midjet of the Grapes. Vines grow standard size. Very hardy and live for years.

GOLDEN MUSCAT

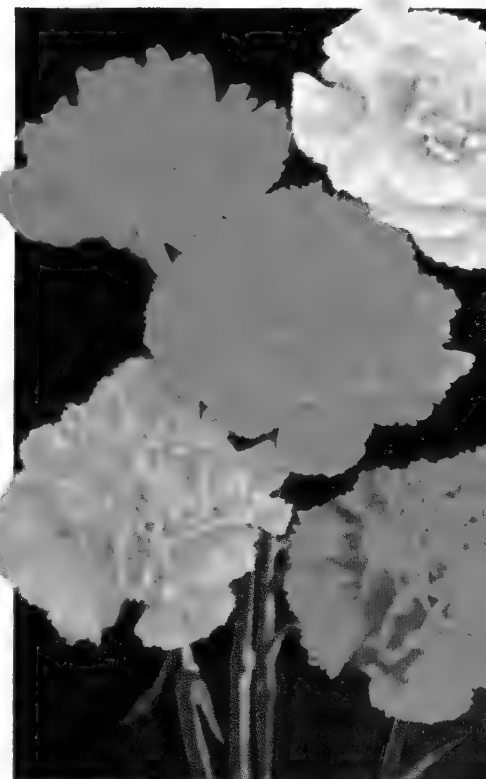

This new hardy California yellow Grape can now be grown anywhere, because it's hardy enough. The berries large, and form a big, compact bunch that is very attractive. Quality is of the best, fruit being meaty with the Muscat aroma. Be sure to have at least 1 plant of this new variety in your garden or back yard, and be convinced. Prices: 2-year-old No. 1 vines, each \$1.10; 3 for \$3.00. Less Discounts.

MOUNTAIN PINK, Phlox Subulata

Moss or Creeping Phlox

One of the best loved and best known of the spring blooming family. These low spreading plants, with solid sheets of flowers that hide the mossy evergreen foliage through May and early June, have endeared themselves to everyone. They are about 6 inches high and make clumps from one to two feet across. All are sun lovers and are very drought resistant. The soil should be well drained and not too rich. Excellent for the rockery, front of the hardy border, and for covering terraces, dry hillsides and cemetery work. Plant 12 inches apart in masses, or drifts for pleasing effects. Nice, well-rooted plants, 3 for \$1.00; 6 for \$1.95; 10 for \$3.25. Less Discounts.

Fall Bearing IRIS

This is really something new in Iris. The Fall Blooming Iris we list are rather dwarf in growing habit. Never grow over 24 inches tall. Bloom in the spring with the others, and start again in September and continue till frost. Double duty Iris. Hardy, fast growers, and very prolific. We have reduced our prices this year. Have a large stock, so here goes. We offer Black Magic and mixed varieties.

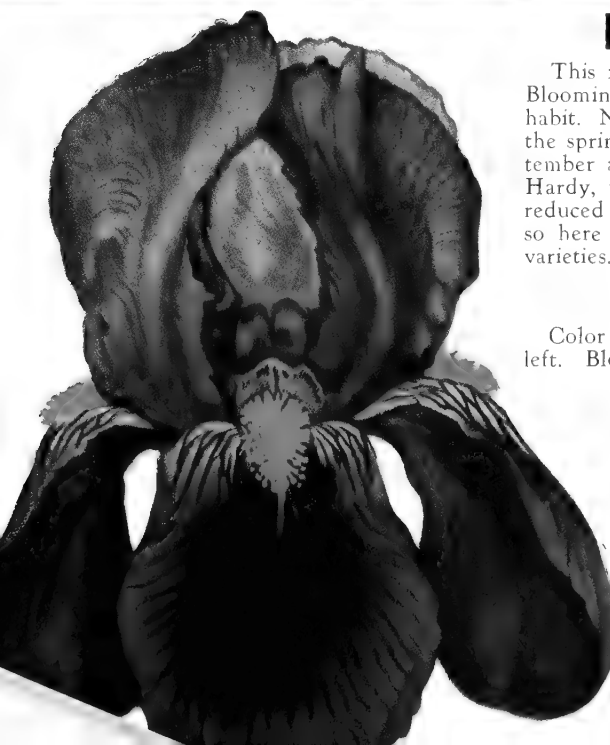

BLACK MAGIC

Color is dark blue-black. See color photo at left. Blooms in spring, and again in the early fall to winter. Just a mass of color. We like these double duty Iris much better than the common kinds that bloom only for a short time in July.

PRICES

Each	\$0.40	10 for . .	\$2.90
3 for	1.00	25 for . .	6.25
5 for	1.50	100 for . .	22.50

We offer Mixed Fall Blooming Iris. Several colors in this mixture, all nice varieties. 5 for \$1.25; 10 for \$2.00. Less Discounts.

CARNATIONS Five Colors

All double. Big 1½ to 2-inch flowers with double and triple rows of petals, all fancy fringed. Spicy lingering fragrance. Lovely, grass-like, blue foliage. Blooms all summer. Fine cut flowers. Ideal for borders. Five colors: Yellow, Scarlet, Pink, Dark Maroon, Light Red. Prices: 1 of each for \$1.75; 2 collections for \$3.00. Less Discounts.

TALL GROWING Large Flowering MUMS

Are easy to grow and give a variation of color in the fall when color is so badly needed in the garden.

MINONG. One of the best tall growing white Mums. Large very double snow-white flowers, often borne in clusters. Blooms September and October.

PROFESSOR SAM WILLISTON. Tall double red of very fine quality. Long stems, and just a mass of color in September and October.

GOBLIN. Warm rich red-bronze color. Blooms on tall stems, in clusters. A beautiful sight. September and October.

ALGONQUIN. Fine brilliant double yellow. Blooms earlier in September. A very good cut flower.

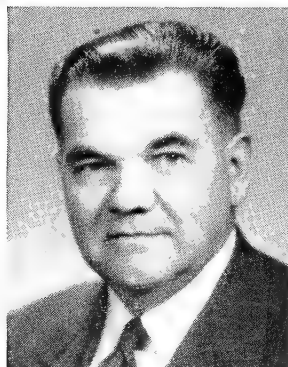

LATE PINK. Double mulberry-pink flowers about 2½ in. across, and extra fine for cutting. Blooms in October.

HOW TO ORDER

George Stromer, Prop.

Son John Stromer

Son Dick Stromer

Fill out and mail your order as soon as you can after you receive this catalog. Remember, the earlier the better. On all early orders received before February 5th we are allowing a 20% cash discount on items in this catalog. Or you may take your discount in extra plants. 15% cash discount will be allowed on all orders received before March 5th, and 10% cash discount on orders received before April 5th.

TERMS and REMITTANCE. Send post office or express money orders, bank draft, or your personal check. Please do not send currency unless you register the letter. Our terms are full payment with order. However, on orders amounting to over \$10.00, we will accept one-third payment with order and you may send the balance before it is time to ship.

WHEN TO PLANT. March, April and May are the planting months. Be sure to state when you want shipment made. If in doubt, let us ship at the proper planting time for your locality.

REFERENCES

The Bank of Three Oaks; Citizens Bank, Michigan City, Indiana; American Railway Express agent, Postmaster or Dun & Bradstreet.

Complete growing instructions will be sent with each order.

Look for them in the package, and save for future use.

GUARANTEE

We guarantee all of our nursery stock to be just as represented in our catalog; fully up to grade, of good quality, free from disease, and absolutely true to name; also to reach the customer alive, and in perfect growing condition. Furthermore, we will, at our option, either replace free of charge, or refund purchase price on any stock that arrives in bad condition; providing claim is made within 5 days from arrival of shipment, accompanied by a signed statement from the Express Agent or Postmaster at destination, showing extent of loss or damage. If any stock proves untrue to name, it will, at our option, either be replaced free of charge, or purchase price will be refunded; but in no case will we be responsible for a sum greater than the original purchase price paid. Beyond this our liability ceases. It is understood and agreed between the customer and ourselves that the purchaser's order, and our acknowledgement of its receipt, shall constitute a mutual acceptance of the above terms and conditions.

HOW TO SHIP. We ship everything either by express or parcel post. We will not make freight shipments, as this service is too slow. Express is the best and cheapest in most cases. Again, if in doubt, let us decide which will be the cheapest and best for you.

DISCOUNTS. It will pay you to mail your order early, as this year we are allowing 20% cash discount for orders received before February 5th, 15% before March 5th, 10% before April 5th. If you prefer extra plants for this discount, please state on the order sheet.

Hugo Koster, French Lilac

Mary Washington
Asparagus

FRENCH LILACS

CHARLES JOLY. Double purple-red. This is one of the best double dark reds. Large blooms that are held up well above the foliage. Bush is a very good grower. Grows upright. Dark green foliage. Hardy Hybrids. Very sweet scented. **Prices:** 2-3 ft. strong plants, well branched, well rooted, each \$2.00.

HUGO KOSTER. Bluish lilac. This is a very beautiful single blue French Hybrid Lilac. The single flowers are packed closely on the bush, and flowers are held well above the dark green foliage. Sweet scented, strong grower. **Price:** Strong 2-3 ft. well-branched plants, well rooted, each \$2.00.

MME. LEMOINE. This is by far the best double white. Not cream color, but pure white. Free bloomer, and the sweetest scented of them all. The florets are like little double Roses, all gathered to make those extra large panicles. What a sight. Dark green foliage. **Price:** 2-3 ft. well-branched plants, well rooted, each \$2.50. Less discounts on all Lilacs.

PEPPERMINT

(*Mentha Piperita*)

True Peppermint. Leaves and stems may be used for flavoring. Plant in low place, where water stands, or overflow from your outdoor pump. Must be grown in wet place to do well. Six roots will spread and make plenty for average family. Makes beautiful ground cover. **6 roots, 75c. Less Discounts.**

CANADA RED RHUBARB

A brand new Rhubarb imported from Canada. Stems dark red clear to the heart and up in the leaf. Sauce made from our Canada Red will be as red as Strawberry jam. Skin so tender it can be cooked with the stem. Grows to a giant size. Stock still limited. We offer divisions as it can not be grown from seed. **2-yr. divisions: Each 75c; 3 for \$2.00; 6 for \$3.75. Ready to bear clumps: Each \$1.25; 3 for \$3.00. Less Discounts.**

MARY WASHINGTON ASPARAGUS

There is no variety of Asparagus as good as Mary Washington, and whether for home use only or for market, you cannot afford to grow any other. This wonderful new Asparagus was developed and introduced by the U. S. Department of Agriculture, and although a recent introduction, it has become famous the country over.

Growers everywhere are discarding all other varieties in favor of Mary Washington, because it is earliest, the stalks are larger, more tender, more productive than any other variety.

ASPARAGUS PRICES

2-Year-Old Roots			
6 for	\$0.75	100 for	\$ 4.25

LESS DISCOUNTS

VICTORIA RHUBARB

This giant stalked Rhubarb is the best that can be grown. It is tender, early, and has a mild acid flavor. Stalks are reddish green. Delicious for pies and sauce. We offer you nice size, 2-year-old roots that can be cut this year. **Price: Each 25c; 3 for 65c; 12 for \$2.00; 25 for \$3.75; 100 for \$14.00. Heavy clumps, each 60c; 3 for \$1.50; ready to pull this year. Less Discounts.**

HORSERADISH ROOTS

This is the good old Bohemian Horseradish. Will grow any place from high light sand to rich bottom land. Grates up fine and tender. White as snow and strong as Samson. **Prices: Heavy roots, 3 for 35c; 10 for \$1.00. Less Discounts.**

Canada
Red

Spirea Van Houttei

Persian Lilac

Red Dogwood

FLOWERING SHRUBS

PERSIAN LILAC

A dwarf variety with slender, arching branches, tipped with blue panicles of purple flowers. A more profuse bloomer than the common, and does not sprout from the roots. Desirable for grouping with other shrubs. Makes a beautiful hedge when planted 2 feet apart and trimmed to desired height. **Prices: Strong, 2-3 ft. plants, each 75c; 2 for \$1.45; 10 for \$6.75. Less Discounts.**

SPIREA VAN HOUTTEI

One of the most common but still one of the most beautiful of all shrubs. So easy to grow. Early in the spring the leafless branches will be covered with tiny snow-white blooms drooping gracefully to the ground. Often called Bridal Wreath. We offer strong, field-grown plants in 18-24 inch size. Best size to plant. Will bloom this year. **Prices: 3-year-old, 18-24 inch, each 35c; 3 for \$1.00; 6 for \$1.80; 10 for \$2.80; 25 for \$6.25. Less Discounts.**

SINGLE SCARLET FLOWERING QUINCE

(*Cydonia Japonica Rubra*)

Loads of bright scarlet-red flowers with golden stamens, charmingly arranged all along stems in early spring. Foliage is green tinged maroon and very interesting. A medium height shrub. Also makes a hardy, dense hedge. Small, fragrant Quinces make delicious jelly. Rich in pectin. **Strong 18-24 in. plants, each 55c; 3 for \$1.50. Less Discounts.**

DOUBLE RED ALTHEA

Blooms in August when other flowers are so scarce. See picture at left. A four-year-old Red Althea in full bloom. If you are looking for bright color in your landscape, here is the answer. Bright red, and as double as a Rose. May be used for a hedge or tall growing background. We offer 2-3 ft. strong plants. **Price: Each 75c; 3 for \$2.10; 10 for \$6.00. Less Discounts.**

RED DOGWOOD

(*Cornus Florida Rubra*)

Lovely red flowered Dogwood, that blooms so early in the spring, on gracefully shaped trees. Will grow in shade, in dry or wet soil. **Price: 2-3 ft. trees (balled in peat), each \$3.50. Less Discounts.**

WHITE DOGWOOD

(*Cornus Florida Plena*)

Beautiful, large, snow-white flowers early in the spring. Grows well in shade or open sunlight. Dry or wet soil. Not fussy at all. **Price: 2-3 ft. trees (balled in peat), each \$3.50. Less Discounts.**

FORSYTHIA (Golden Bell)

Earliest of all shrubs to bloom in the spring. Always covered with yellow bells before the leaves appear. Often in bloom during a late spring snowstorm. Bloom this year. **Prices: 2-3 ft. plants, each 50c; 3 for \$1.45. Less Discounts.**

HYDRANGEA P. G.

Flowers are extra large, white at first, turning to a pretty pinkish purple, and later on in the fall to a perfect bronze. Fine winter bouquet. Blooms July to October. Bloom this year. **Price: 18-24 in., strong plants, each 75c; 2 for \$1.45. Less Discounts.**

Forsythia

Red Althea

Hydrangea P. G.

Scarlet Quince

Mock Orange
Virginal

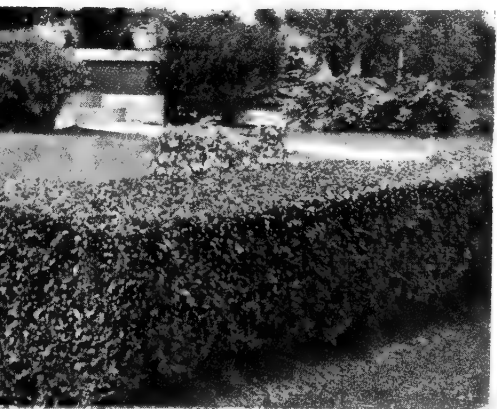

Redbud

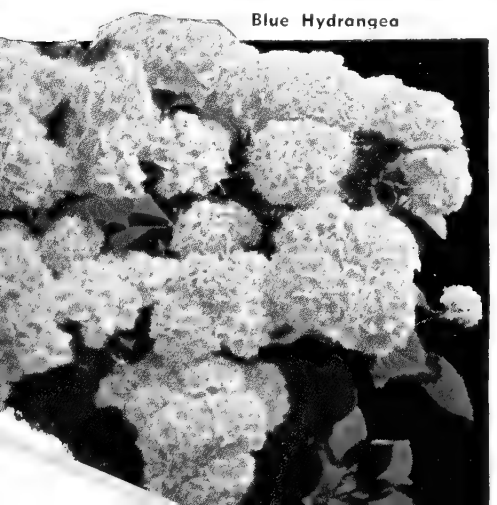

Paul's Scarlet Thorn

Hydrangea A. G.

Amur River Privet

Blue Hydrangea

FLOWERING SHRUBS

REDBUD

One of the handsomest of the low growing, flat-topped trees. Attains a height of about 15 feet at maturity. Along the numerous, wide spreading branches, rosy lavender blooms appear before the tree leafs out in spring. Flowers are so thick the tree appears as a small pink cloud. Due to the extreme hardness of the wood, the tree is usually very late leafing out. **Prices:** 2-3 ft. trees, ready to bloom, each \$1.25; 2 for \$2.25. **Less Discounts.**

RED HONEYSUCKLE

Shrub-form Honeysuckle. Flowers trust red and largest of all. Red berries in fall. Large, waxy green leaves. Thrives in sun or shade. Grows medium height. **2-yr., blooming-age shrubs, 60c each; 2 for \$1.15. Less Discounts.**

PAUL'S SCARLET THORN

Its dark green leathery leaves act as a perfect background for the brilliant rosy red double blooms that grow in clusters. Its long blooming period makes it a perfect ornamental and shade tree. **Price:** 5-6 ft. trees, \$2.00. **Less Discounts.**

MOCK ORANGE, Virginal

This is the new, double white Mock Orange that is so fragrant that will spray a room with perfume when used as a cut flower. No better shrub to dress up the yard. Hardy. Strong grower. Blooms in May and lasts two weeks. **Strong 18-24 in. shrubs, each \$1.00; 2 for \$1.90. Less Discounts.**

HYDRANGEA A. G. (Hills of Snow)

This is the snowball type Hydrangea. Large blooms in June and last all summer. Will grow in the shade as well as sunlight. **Prices:** Large, 18-24 inch plants ready to bloom, each 85c; 2 for \$1.60. **Less Discounts.**

HARDY PRIVET (Amur River North)

Easiest to grow of the Privets. Very hardy. Thrives under unfavorable planting conditions. Glossy green leaves. Clusters of white flowers followed by berries. Trim to desired height and shape any time during summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For very wide hedge, plant two rows, alternating the plants. Well-branched, well-rooted bushes.

	10	25	50	100
12-15 in.	\$1.35	\$2.50	\$4.50	\$ 8.00
15-18 in.	1.95	3.50	5.50	10.00
18-24 in.	2.50	3.95	7.00	12.00

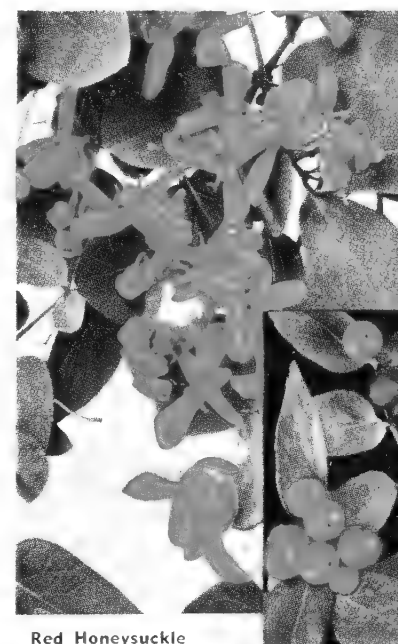

LESS DISCOUNTS

RED BARBERRY

Same as green Barberry except that the foliage is bright red. Stays red all summer and followed by red berries in the fall. Plant 18 inches apart. Fine to plant near or around evergreens to discourage dogs. **Prices:** 15-18 in., strong plants, each 60c; 3 for \$1.75; 10 for \$5.00. 18-24 in. strong, each 75c; 3 for \$2.00. **Less Discounts.**

BLUE HYDRANGEA

A rare plant of exquisite beauty, which will produce a fine crop of glorious blue flowers measuring 6 to 10 inches across. A few old rusty nails placed in the hole as you plant will assure them to bloom blue and stay blue. Or a teaspoonful of aluminum sulphate will do the trick also. **Prices:** 2-yr.-old, field-grown plants, each \$1.50; 2 for \$2.75. **Less Discounts.**

Red Honeysuckle

Red Barberry

Etoile de Hollande

Hardy

Everblooming ROSES

Dependable

CALEDONIA. A perfect white Rose that is so fragrant. Double, perfect shape. Free continuous bloomer.

PRES. HOOVER. Long pointed buds that are flaming scarlet and yellow. Open two-tone. Fragrant and free bloomer.

BRIARCLIFF. Exquisite silvery pink of rare beauty. Long pointed buds. Always in bloom, and so fragrant.

TALISMAN. Gold, red and rose blend, always a favorite. Long pointed buds on long stems. Very fragrant.

POINSETTIA. Velvety poinsettia-red. True color. Non-fade. Fine for cut flowers. Long stems. Free bloomer.

GOLDEN CHARM. Graceful long pointed buds of pure yellow. Long stems. Fragrant. Continuous bloomer.

Etoile de Hollande. One of the most beautiful of the reds. Pointed buds and extra large fragrant blooms. Extra double.

GRENOBLE. Large scarlet blooms of fine form. Always in bloom on its large bush. Free bloomer and fragrant.

EDITOR McFARLAND. The sweetest pink Rose of them all. Free bloomer, and extra fragrant. Pointed buds.

LUXEMBOURG. Fine strong grower. Long pointed yellow buds that open to a large double bloom. Free bloomer and fragrant.

Our Roses start to bloom 60 days after set. Continue until stopped by killing frosts in the late fall.

LAWN TREES

SMOKE TREE (Rhus Cotinus)

Clouds of misty purple flowers make this shrub look like a "puff of smoke" when in bloom. Flowers are long lasting. Grows 6 to 8 feet tall. Trim to desired height. (Ours is the hardy variety that can be grown in the northern states.) **Price: Strong plants, 18-24 in., each 95c. 2-3 ft. size, \$1.50 each. Less Discounts.**

HOPA CRAB

Beautiful bright red flower buds, opening into fragrant pink flowers are produced on this popular low growing ornamental tree. Beautiful foliage is maroon colored. In midsummer small red apples are produced which make very fine jelly. Trees are hardy, thrive in any soil. **4-5 ft. trees, each \$1.00. Less Discounts.**

WEeping WILLOW

This is the green Weeping Willow, with the long, drooping branches, that dresses up a yard so beautifully. Also fine for rock gardens along the bank of a stream or lake. Very hardy. Will grow on high ground or in water. Picture at right. **Price: 5-6 ft. trees, each \$1.60; 2 for \$3.00. Less Discounts.**

SILVER MAPLE

One of the fast growing shade trees that thrive on all kinds of soils and in hot or cold climates. Leaves are green on top, lighter under surface, turning gold in the autumn. Makes a graceful head. Plant trees 35 to 45 feet apart. Well rooted, well-branched specimen trees. **Price: 6-8 ft., each \$1.75. Less Discounts.**

MULBERRY

This is a fine tree both for shade, and also a fruit tree. It will pay you to have one or two of these Mulberries growing on your place to feed the birds. The birds prefer them to your Cherries, so this is the very best way to solve your Robin trouble in Cherry time. It really works. Also fine for both hedge and screen or windbreak. **Price: Nice size well-branched trees, 4-5 ft., each \$1.25; 2 for \$2.00; 5 for \$4.50. Less Discounts.**

SCHWEDLER'S MAPLE

A gorgeous variety of Norway Maple with foliage a rich red color in the spring, turning form green towards fall. Fast grower. **Price: 7-8 ft. trees, each \$3.00; 2 for \$5.75. Less Discounts.**

EUROPEAN MOUNTAIN ASH

Plant a pair of these trees on your front lawn. The leaves are narrow and formed in pinnate shape, arranged on frond-like branches with huge clusters of orange berries that make this our most beautiful shade tree. May be trimmed as desired. Grows to a height of 40 feet, forming dense head, providing shade. **5-6 ft., each \$1.90. Less Discounts.**

CUTLEAF BIRCH (Weeping)

The queen of all Birches is this unusually graceful tree with weeping branches. Excellent for lawn planting. Bark is white, and peels as the wood ages. Picture at left. **Prices: 6-7 ft. trees, each \$3.50. Less Discounts.**

CLUMP BIRCH (European)

This is the white bark Birch, with three stems to each tree, giving naturalistic effect often seen growing wild. Makes a beautiful tree for the lawn. **Prices: 6-7 ft. trees, 3 or more stems, \$3.50. Less Discounts.**

CHINESE ELM

One of the most rapid growing trees. Very durable and hardy. Slender, tough branches. Compact habit of growth with small, attractive leaves. Highly recommended for street planting. Grows anywhere, and is one of the best for dry climates. Picture at right. **Price: 6-8 ft., strong bushy trees, each \$2.50; 2 for \$4.75. Less Discounts.**

CHINESE ELM HEDGE

Makes beautiful hedge both for low and tall hedge to hide unsightly places about your lot. Offer 3-4 ft. plants branched from bottom to top. Husky plants at these bargain prices. **10 for \$2.50; 20 for \$4.75; 100 for \$15.00. Less Discounts.**

WISTARIA TREE

Large racemes of charming pea-shaped orchid flowers in great quantities on graceful drooping branches with artistic green leaves. Grows 6 to 8 feet at maturity. **Grafted, sure to bloom, branched, 3-4 ft., balled in peat, \$3.50 each; 2 for \$6.50. Less Discounts. Supply limited.**

A
Real Novelty!

New RED LEAF PEACH

Sensational New Ornamental

Many ornamental trees have been offered with colored foliage, but never an ornamental **PEACH TREE with RED FOLIAGE**; bright red in spring, dulling to deep maroon towards fall. Deep rose blossoms against red foliage creates a most pleasing contrast.

Trees produce a full crop of perfectly round Peaches, 1½ inches in diameter—just the size for pickling. Fruit has all-over red coloring; flesh is white with a delicious sweet flavor. Ripens late, same time as the Gold Drop. Hardier than standard varieties.

Two-purpose tree—a grand ornamental; produces full crop of edible Peaches!

4-5 ft. trees: Each \$1.25; 2 for \$2.25. Less Discounts

WE RECOMMEND

We recommend express shipments of your orders as the best way. Express is automatically insured, and is a very fast and safe way to ship. Let us use our own judgment on how shipment should be made, if in doubt. Most places have free delivery service to your door. No tight mail bags when stock is shipped express.

New Red Leaf Peach Showing Fruit, Bloom and a 3-Yr.-Old Tree
Leaves Stay Red in Fall, Then Turn Maroon

KOREAN CHERRIES

Here's the ideal combination you've been looking for—an attractive ornamental bush that bears loads of delicious cherries for pie, sauce and jelly!

Korean Bush Cherries grow only 3 to 4 feet tall. They make excellent foundation plantings with their delicate green leaves (which turn bronze in the fall), their mass of white bloom early in spring and brilliant red fruit in August.

BEAUTIFUL AND USEFUL, TOO

You can plant Korean Cherries near the house, in the shrub border, the screen planting, or in the garden. Resembling flowering almonds, they add a touch of beauty to any landscape planting. And they provide fresh fruit grown inside the foliage where birds can't reach. Or plant them especially for the birds.

You would hardly suspect that these little bushes bear loads of delicious full-sized cherries the second year. The fruit is sweeter than regular pie cherries. The pies they make will please the heart (and stomach) of any man or boy!

The wild form of this cherry is a tough, hardy native of Korea. Horticulturists at the Minnesota State Fruit Breeding farm improved it by years of selection and testing. Our stocks are propagated from the state's best selections.

We offer Korean No. 20 and Korean No. 60. It will be necessary that you plant one of each to insure correct pollenization.

PRICES: Korean No. 20 and No. 60, 2-3 ft., 2-year-old plants, each \$1.50; 3 for \$4.00; 6 for \$7.00.

HALE-HAVEN

This variety is a week later than Fairhaven. In popularity and profit producing, it is second only to the famous Elberta. In a few years there will be more Hale-Haven planted than any other variety. Our fancy, well-bred Hale-Haven trees will bear young and annually. Fruit is freestone, and deep orange-yellow with deep red color many days before they are fit to pick. When fully tree-ripened they are a sight to look at. Firm, yet tender, sweet and juicy. Ship well and will keep a week in the refrigerator, even when fully ripe. We do not hesitate to say that Hale-Haven is the best canning and freezing variety of them all.

NECTARINE

Lovely pink flowers in spring, on small, ornamental trees. Loads of deliciously sweet fruit in late summer! Smooth skin like Plums. Mellow, rich, juicy flesh like Peaches. Very fragrant and attractive. A treat for the family, whether served fresh or canned. Hardy as Peach trees, and self pollenizing. **Prices: 9/16 in., 4-5 ft., 2-year-old trees, each \$2.00. Super size trees, each \$3.00. Less Discounts.**

Nectarine

FAIRHAVEN

Ripens a week earlier than Hale-Haven.

In a continuous effort to develop better Peach varieties that will ripen earlier than Elberta, the Michigan Agriculture Experiment Station at South Haven have introduced the FAIRHAVEN.

It's a cross between the South Haven and J. H. Hale varieties.

Fruit is large, beautiful color. Yellow. FREESTONE.

Trees grow strong and large. As hardy as Hale-Haven, and produces large annual crops. At South Haven the spring of 1943 and 1945 were extremely cold and foggy during blossoming season, yet FAIRHAVEN came through with full crops, when trees of many other varieties were unproductive.

ELBERTA

Genuine Elberta Peaches are universally known as the outstanding money-maker Peach wherever Peaches are grown. Roundish oval in shape, with deep golden skin blushed carmine-red. Flesh is golden, rich flavored, ideally firm and fine textured. Without doubt the leading shipping, canning, storage, drying and freezing Peach. Fruit perfectly freestone. Self-pollenizing variety. A good pollinizer for other Peach varieties. Ripens medium late and remains in good condition on trees a long time. Trees are vigorous growers and usually bear the third year. Enormous yield at maturity. (Ripening date Aug. 20 to Sept. 10.)

APPLES FOR HEALTH

Red
Delicious

DOUBLE RED DELICIOUS

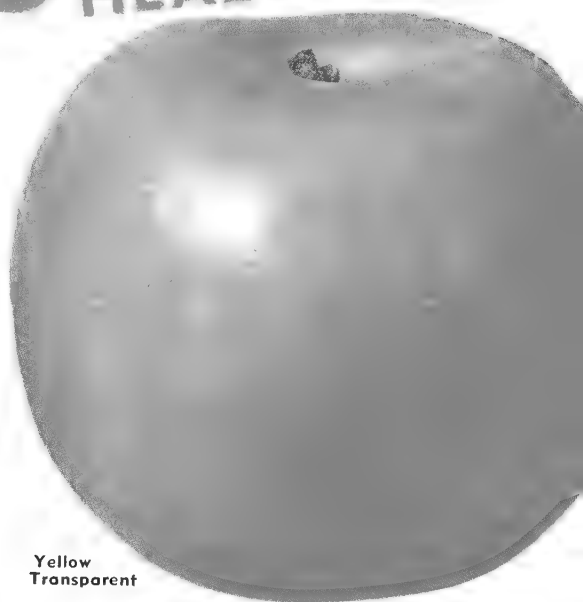

This variety is far superior to the common red Delicious, as it is highly colored all around, with no green sides. Double Red Delicious is America's number one Apple. It tops the market every time, and seems to bear in a wide range of soils and climates. The fruits are very large, solid red, with the five points, and rather long in shape. Truly a most beautiful Apple, and the best eating Apple of them all. Flesh slightly yellow, with semi-sweet flavor. Two- and three-year-old sizes available. **Prices below.**

DOUBLE RED JONATHAN

This is No. 2 Apple on the market. That is, Red Delicious brings the highest prices and sells the best, and Jonathan comes next. This variety cannot be praised too highly. It's solid red, good sized, firm, juicy, and keeps well. Its flesh is white and brittle with that tart tangy flavor that's in a class all of its own. Cast your eye on that Jonathan Apple below. That's just the way they look when fully ripe. If I had room for only one Apple tree, I would surely plant a Jonathan. Start to bear fourth year after set, and bear every year. We have a 40-acre Apple orchard in bearing. Thirty acres of it are Jonathan. Two-, three- and four-year sizes available.

YELLOW TRANSPARENT

The finest extra early yellow Apple. It ripens in July. Fruit medium size, and can be used for pies and sauce before entirely ripe. Flesh white, mild, juicy and sweet. Bears young and regularly. Two- and three-year sizes available. **Prices below.**

Yellow
Transparent

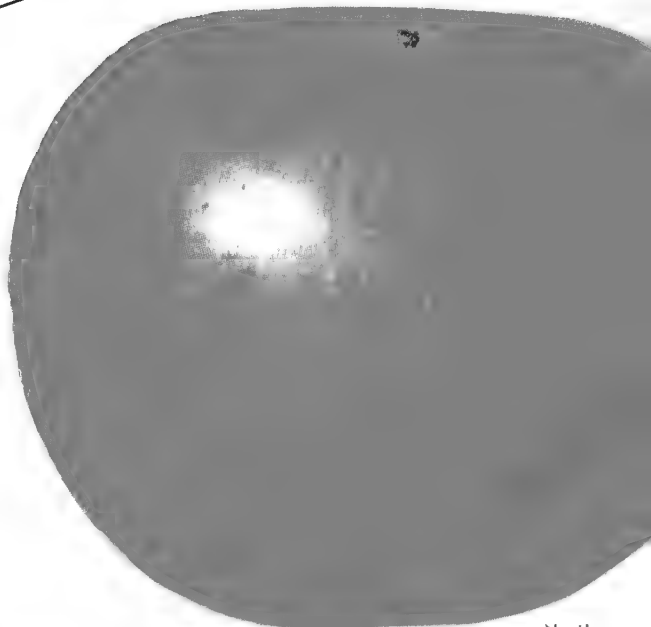

**DON'T OVERLOOK
Our Giant Size Apple
Trees On Page 28**

NORTHERN SPY

It's hard to beat the Northern Spy Apple for eating, cooking or any way you want to use it. Fine grain flesh, juicy, and mellow. Has a flavor that is found in no other variety. Tree grows upright, and makes an excellent shade tree as well as a fruit tree. Why not plant one in the yard, and sit in the "Shade of the Old Apple Tree?" Two-year and three-year size trees available, also four-year trees.

TURLEY WINESAP (Winter Apple)

The best keeper of the solid all-red winter Apples. Big, beautiful. Delicious fresh or cooked. Grown everywhere with grand success. In big demand for shipping, storage, drying, freezing, baking, pie making—everything. An all-around perfect Apple.

Turley
Winesap

DOLGO CRAB

The perfect Crab. Hardy everywhere. Heavy bearer, usually beginning the year after setting. Jells perfectly even when dead ripe. A fine ornamental tree for the lawn as well as a wonderful commercial sort. Rapidly displacing such varieties as Transcendent and Hyslop. Bears young. **Prices below.**

Wealthy

Yellow Delicious

SEMI-DWARF APPLES

These Apples are budded on Sieboldi root, which causes the tree to grow in a **semi-dwarf** fashion. This is just the ideal thing, where a person wants to plant more trees on a plot of ground than you could do with standard Apple trees. These are not a full dwarf, so you should set them about 16 feet apart. We offer **Solid Red Rome Beauty** and **Solid Red Delicious**. Bears young.

Semi-Dwarf SOLID RED DELICIOUS

Every one knows the Red Delicious Apple by this time. Grown from coast to coast, and is considered number one Apple wherever you go. Finest eating Apple. Keeps well.

Semi-Dwarf SOLID RED ROME BEAUTY

This is one of the most beautiful of all Apples. Extra large, well shaped, red all over. Firm texture. Marvelous for eating, baking or cooking. Very fine Pie Apple, too. Keeps well into the winter.

McINTOSH Solid Red

McIntosh is a late fall Apple. The fruit is red, good size, with white flesh. We would say that it takes the place of the old-fashioned **Snow Apple**. It's an eating Apple. Trees grow fast and bear young. Not a winter keeper. 2- and 3-year sizes available. **Prices above.**

YELLOW DELICIOUS

Winter. Comes into bearing early, producing heavy crops. Very thrifty, hardy, vigorous grower. A golden Apple which has won fame as an outstanding commercial variety. 2- and 3-year-old sizes available. **Prices above.**

McIntosh

Apple Trees

These trees are twice as large as our **Super Size** trees, and are ready to bear. Well branched, and a wonderful root system. These are trees that we did not get dug last fall on account of the weather, so we left them in the nursery to grow another year larger. We can offer these Giant size trees only in Red Delicious, Jonathan, Northern Spy, Turley Winesap, Dolgo Crab, and Yellow Transparent. Of course the supply of these trees will be limited, so order yours early. **Price: Each \$3.00; 3 for \$8.75; 10 for \$25.00. Less Discounts.**

DWARF BARTLETT PEAR

This is just the thing for small back yards or lawn planting. Trees never get large. Bears fruit second year, and of standard size. It's only the tree that's dwarf, and not the fruit. A Dwarf Bartlett not over 6 ft. tall can bear a half bushel of fruit. These trees can be set 8 ft. apart, since they never will get large. Each \$2.50; 3 for \$7.00. Large 2-yr. trees. Less discount.

BOSC HOLIDAY PEAR

The long-necked Pear which is sold on the fancy fruit stands at a handsome profit. Has sweet very firm white flesh. Firm skin makes it a wonderful keeper. There is no finer flavored fruit in the Pear family. An excellent pollinizer. Prices below.

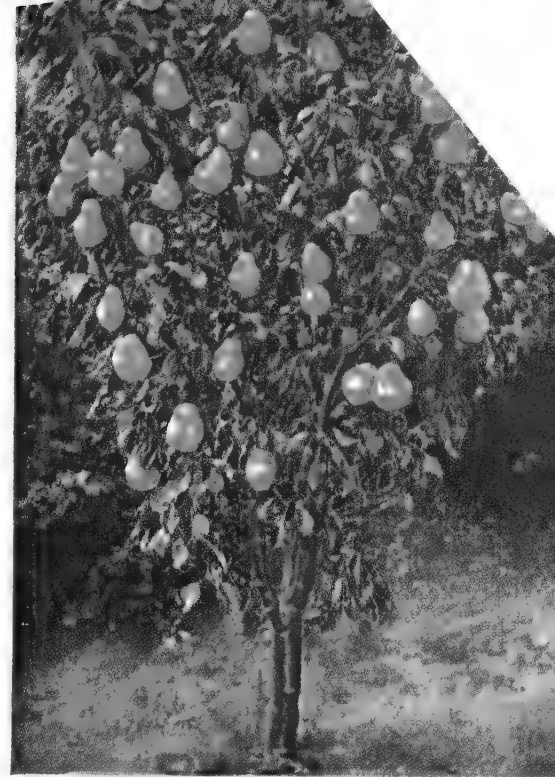

SECKEL (Sugar Pear)

This is the summer Pear that ripens in July. Smaller in size than Bartlett. Often called the **Sugar Pear**. Sweet as honey and mild and juicy. Lemon-yellow color, with white flesh. Fine for making pickled Pears. Just the right size. Trees grow thrifty and start bearing quite young. Enormous yielders. Prices below.

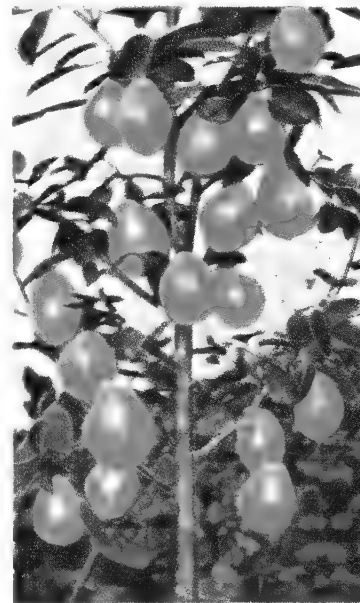

SEEDLESS PEAR

(Seedless and Coreless)

A sweet fine textured late summer Pear. Favored for dessert purposes, canning and summer storage. Mr. Cope, the originator, claims this Pear to be **PRACTICALLY SEEDLESS** and **CORELESS** when grown alone. (Planted near other Pears, it may cross pollinate with them and produce seeds.) Trees are thrifty, healthy and hardy. 3-year-old, heavy, each \$3.00. Less Discounts.

Dwarf Bartlett

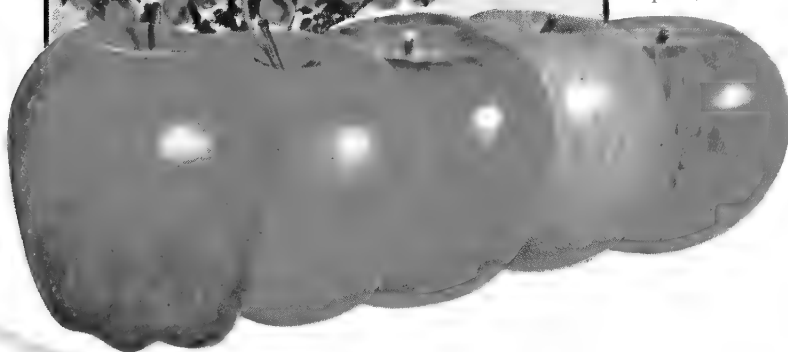

Seedless Pear

Bartlett

BARTLETT PEAR

The Bartlett is the most widely known Pear of them all. It ripens about the first of September. Large, fine texture and flavor. The ideal canning Pear. Yellow, with red blush. Flesh is snow-white and juicy. Bartlett sets the standard. Prices to right.

VEST POCKET Apple Trees

Six Varieties All On One Tree

This is not just a worthless novelty. It is really true. We have budded 5 different varieties of Appes all on a Whitney Crab Apple stock. This makes 6 varieties all on this one sturdy tough understock. You will get Red Delicious, Yellow Delicious, Dark Red Jonathan, Wealthy, Yellow Transparent, and the Whitney Crab on which all these varieties are budded. Yellow Transparent will be the first to ripen, then the Wealthy, and so on up to the late winter keeping varieties. Why buy 6 trees when you have only room for one. Think how interesting it will be to watch this tree develop. Plant one by your kitchen door, take good care of it, and you will be well repaid with sweet Apple blossoms early in the spring, shade all summer, and fruit all summer and fall.

We are offering the super size trees, 3 years old. Each \$3.50. Extra Large Giant Size, each \$5.00. Less Discounts.

Stanley Prune

RED GIANT

MOST BEAUTIFUL PLUM IN THE WORLD

Clusters of 7 to 12 mammoth beauties on the end of each branch! Fruit often measures 2½ to 3 inches long. Roundish oblong in shape. Ripening evenly, Red Giant Plums attain a deep, glowing maroon-red color, thickly overspread with pink bloom. No other Plum like it! Flesh is greenish yellow, very firm, fine and sweet. Wonderful shipper and canner. Not easily bruised in handling. **Prices to right.**

PLUMS

STANLEY PRUNE PLUM

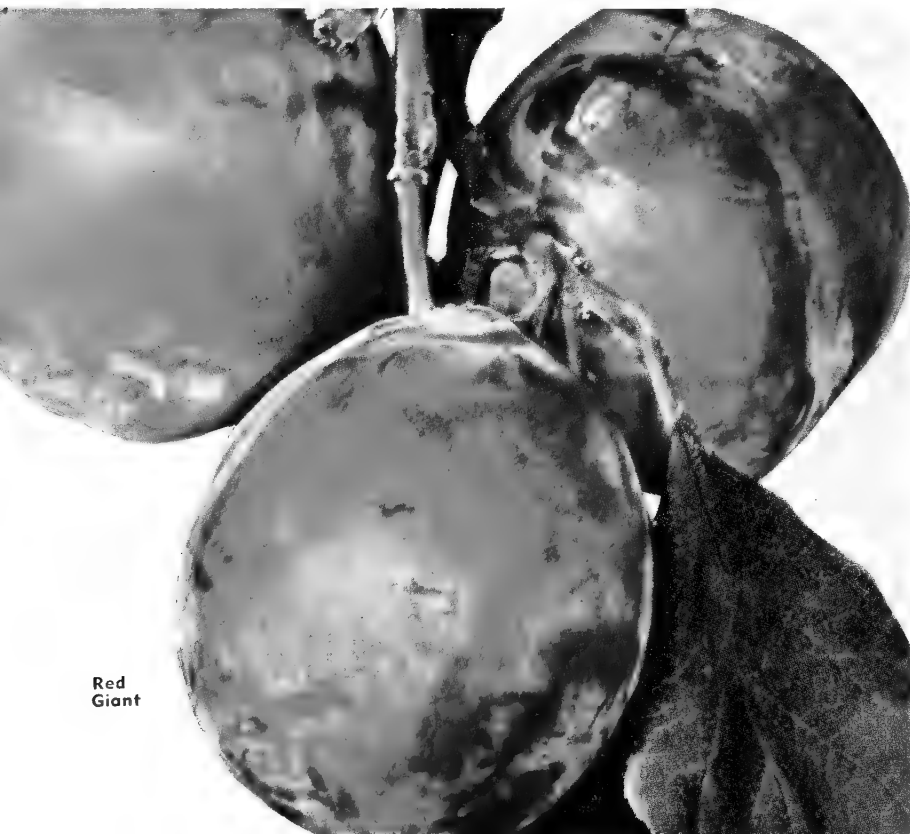

IMPROVED ITALIAN PLUM

Large blue Prune type Plum. Sweetest of all Plums. Flesh is yellow as butter, and the pit falls out when broken open. Starts to bear young and regularly each year. Needs no other variety to pollinize. Ripens early September. Wonderful shipper and keeper. Eat them fresh, can them, or freeze them, and you will have the best. Supply of Stanley Prune trees limited this year. Order early. **Prices at right.**

GREEN GAGE

Large greenish yellow in color, and sweet as honey. Flesh is yellow and very juicy. Truly a dessert Plum. Also very fine for plum butter, canning or freezing. Trees bear young and annually. A basket of tree-ripened Green Gage throw off a sweet perfume that is produced by this variety only. Deserves to be in every back yard or garden. **Prices below.**

Low Growing**

Superior
Plum

BLUE DAMSON

Most popular Plum of them all for preserving. No other Plum will take its place. When canned the juice is a rich wine-purple and highly flavored. Flesh green. Small stone. Hardy. Prolific yielder. **Prices page 30.**

DWARF SAPA

(Plum Cherry)

This dwarf hybrid Cherry Plum comes from Minnesota, and is so hardy that it can be grown, and will produce anywhere. It will also bear where it gets too cold to grow the regular Cherries. Fruits medium size. Smaller than regular Plums, and much larger than regular Cherries. Color is deep purple clear through to the freestone pit. It's sweet as honey when fully ripe. Great for canning, jams and freezing. Trees bear at 3 years old. Being a **dwarf** tree, they can be set 8 ft. apart. Blooms a beautiful white early in spring.

Sapa

SUPERIOR PLUM

Beautiful wine-red skin, covered with purple bloom. Sweet, juicy, yellow flesh, freestone. A very good all-around Plum for every purpose. Trees bear early and are very hardy, recommended for northern and western states.

Although Superior is not termed a dwarf, it is practically a dwarf variety, since it bears so young and so abundantly that it will dwarf itself by bearing so young. Can pick fruit for 15 years and never need a ladder.

Prices on page 30.

Order Now! **Save on Big
Cash Discounts**

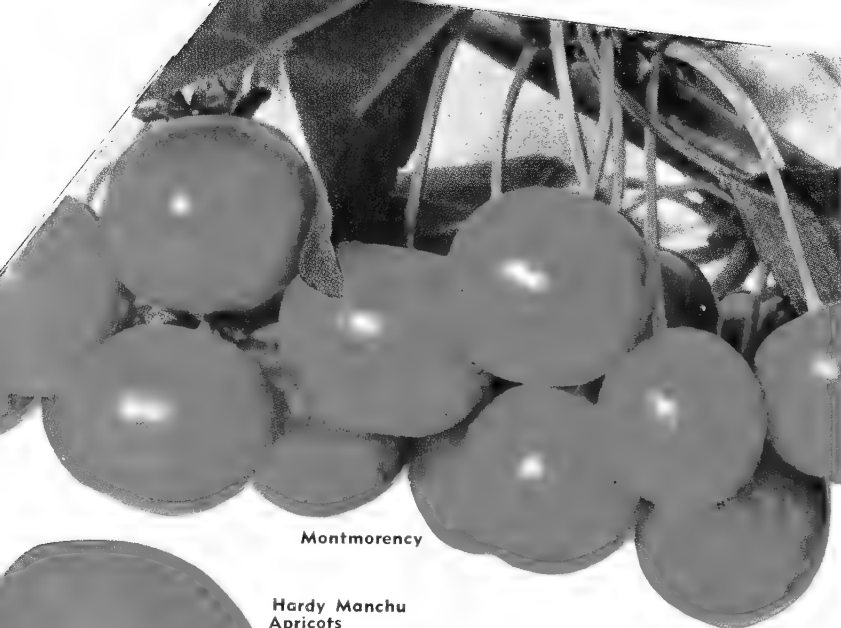

MIRACLE

(Patented)

"HOWARD'S MIRACLE" PLUM IS IN A CLASS ALL BY ITSELF. THE FLAVOR IS SOMETHING OUT OF THIS WORLD.

Its beautiful 2- to 3-inch in diameter fruits, with thin skin and extra heavy meaty flesh, make it the last word in an eating Plum. (Notice the small pit in photo.) Ripens in July and August. Colorful leaves make it a fine ornamental tree in your yard. Trees grow medium size, often bear second year. We offer only large, **SUPER SIZE** trees. **Prices: 4-year-old trees, each \$3.50; 2 for \$6.00. NO DISCOUNT.**

Montmorency

Hardy Manchu
Apricots

Royal
Ann

MONTMORENCY

PIE CHERRY

The finest and most reliable pie Cherry ever introduced. Big, round, juicy, bright red fruits will be yours to eat fresh or canned every July if you will set our "Certified Bud Selected" trees this spring. Often bears the year after set. Deliciously sub-acid. Good to eat fresh, or canned, frozen, or in pies. Also the one to use for Cherry juice. This variety will grow most any place in the United States, except the deep South. Not fussy about the soil. Montmorency is so dependable, and always

sells. Folks will come and pick themselves, if you find yourself short of help in harvest time. You will receive trees that have been budded from Michigan State Certified parent stock. Our supply of these extra fine quality Cherry trees is limited, so order yours early.

HARDY MANCHU APRICOTS

Will even grow as far north as the Dakotas. Original Manchu strain. Bears annually. Trees will often start bearing at 3 years. Fruit is a beautiful orange color. Freestone. Skin is smooth and fuzzless. Sweet as sugar. Not necessary to peel them. Self pollenizing.

HANSEN BUSH CHERRY

The New Quick-Bearing Cherry. EASY TO GROW—SURE TO PRODUCE—Highly Productive Good Flavor—Hardy Everywhere

Though the fruit of this new Cherry much resembles a Plum in size and shape, it comes massed in clusters and at times almost completely covers the limbs. The tree grows in a dwarf bushlike shape, rarely getting over 4 or 5 feet tall. Also of striking ornamental value.

Plant Hansen Bush Cherries Because:

- 1—They are so easy to grow and are perfectly hardy everywhere.
- 2—Are good to eat fresh, and make delicious preserves.
- 3—Bear from the ground up, early, heavily, and annually.
- 4—Are dwarf growing, bushy, and take up little room.
- 5—Excellent for hedges, ornamental shrubs and erosion control.

Hansen Bush Cherry

WINDSOR BLACK SWEET CHERRY

This is that extra large blackish red Sweet Cherry that you see in the fancy fruit stores, that sells anywhere from 35c to 60c per pound. Brittle and sweet. Small pit. Dark wine-red all the way through the meat. Remarkable keeping qualities, and a wonderful producer. Ripens about the time most of the smaller varieties are off the market. Brings the highest price on any market on account of its size and attractive appearance. Sells like hot cakes at all roadside stands. Trees are vigorous, and will grow anywhere on any kind of soil as long as it's well drained. Do not plant them where it is a little wet. Unless you already have a Cherry tree growing, we would advise you to plant at least two trees. These need not be of the same variety. Trees are hardy anywhere the temperature stays above 40 degrees below zero. **Prices to left, page 32.**

PLANT A MULBERRY TREE

Russian Mulberry

This is a fine tree both for shade, and also a fruit tree. It will pay you to have one or two of these Mulberries growing on your place to feed the birds. The birds prefer them to your Cherries, so this is the very best way to solve your Robin trouble in Cherry time. It really works. **4-5 ft. trees, each \$1.25. Less Discounts.**

Plant NUT TREES and BUSHES for ● Beauty ● Shade ● Profit ● Nutritious Food

Chinese CHESTNUT

CASTANEA MOLLISSIMA. This wonderful new strain of Chinese Chestnuts is very hardy, having stood 22 degrees below zero. Blight resistant. Prolific bearers. Start bearing young, often the third year. Trees grow about the size and shape of an Apple tree. Fine flavored sweet nuts, much better than the American Chestnut. Also makes a fine shade tree in any lawn. We offer fine 2- to 3-ft. trees in transplants with fine root system. **Each \$2.50; \$4.50 for 2. Less Discounts.**

HARDY AMERICAN BLACK WALNUT

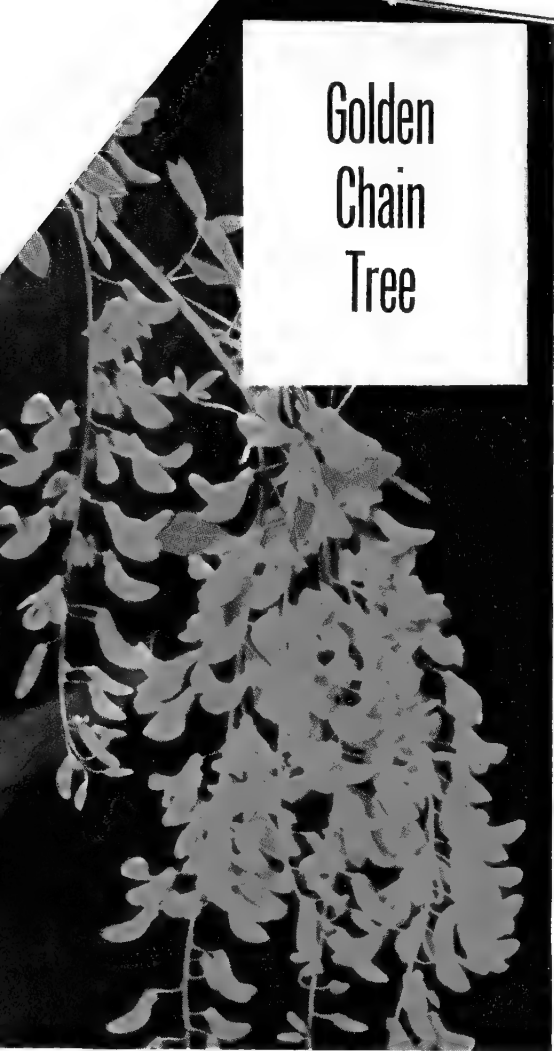

Makes a fine shade tree, and also valuable in the production of nutritious nuts. Very hardy anywhere, and will grow most any place or in any soil, wet or dry. Often grown for timber. Black Walnut lumber, as you know, is very valuable. Plant a grove now for your children or grandchildren, and enjoy the nuts while the trees are growing more valuable each year. **4-5 ft. trees, each 75c; 5 for \$3.25; 10 for \$6.00. No Discount.**

GIANT FILBERT NUTS

We offer the BARCELONA variety. Produces the largest, sweet meated nuts of them all. Heavy producer, and will grow anywhere, either high or low ground, but prefer lower land. Makes a beautiful ornamental bush, and in this way may be useful in more than one way. Would make a good screen to hide some unsightly spot. We offer plants 3-4 ft. tall, transplanted, and have already borne in the nursery row. **Price: 3-4 ft. tall, each \$2.75; \$5.00 for 2; 5 for \$9.50. No Discount. Supply Limited.**

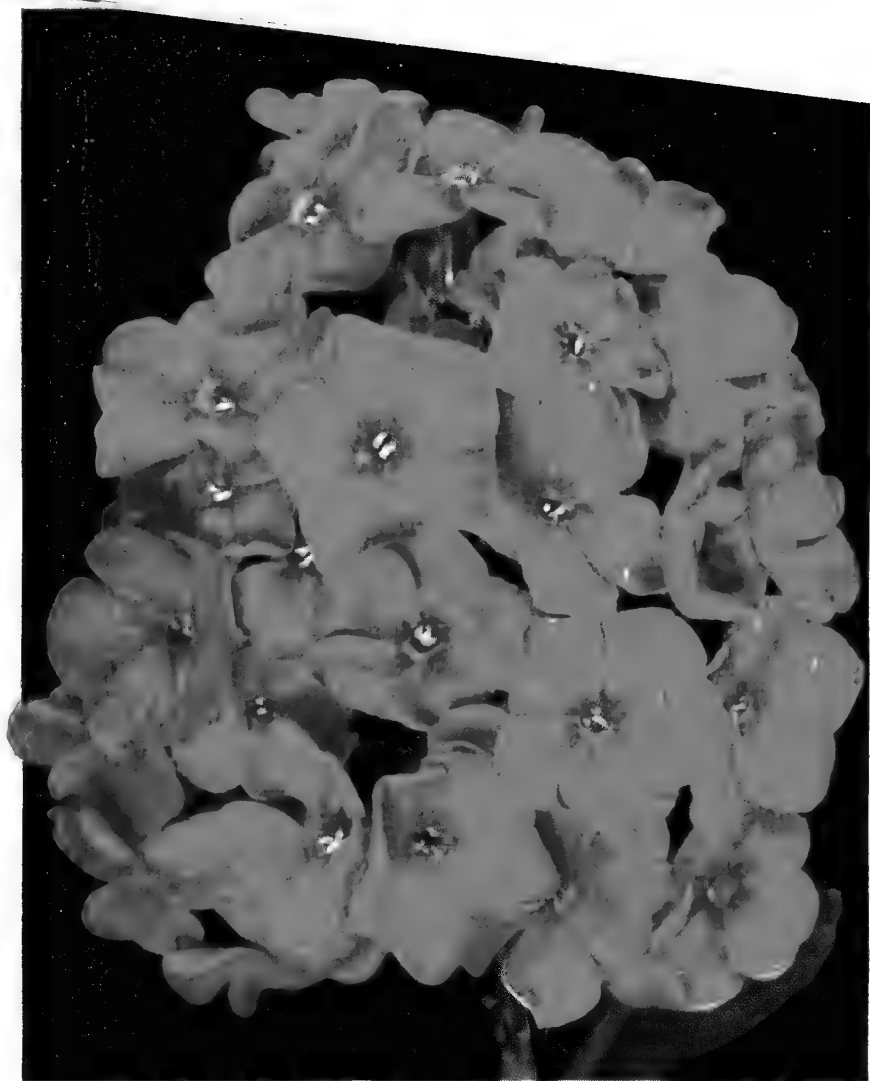

Golden Chain Tree

Cluster of Golden Chain Tree

(Laburnum Vossi)

A very rare tree indeed. In late April and May this upright tree will be loaded with 18- to 24-inch long clusters of sweet-pea-like blossoms, of the brightest yellow. Very ornamental and even the tree itself is a beautiful thing even when not in blossom. These 4- to 5-ft. trees that we offer are cheap at \$3.00 each. Less discount. Limited number for sale this year so hurry. **Price: \$3.00 each; 2 for \$5.50. Less Discounts.**

TIGRESS PHLOX

This is the prettiest of all the reds. Real "Fire Engine" red. Grows 18 inches tall, and one mass of bloom when in full bloom. Lasts nearly 2 months. We offer 2-yr.-old, field-grown, well-rooted plants. **Each 35c; 3 for \$1.00; 10 for \$2.75. Less Discounts.**

DWARF Everbearing FIG

Our Everbearing Figs are developed for growing in the North, as they do well in either tubs or out-of-doors; however, they cannot be grown successfully outdoors north of Philadelphia. (We recommend tub culture north of that point.) The root is hardy and will survive even though the top is frozen. Plants bear the first year they are set out. The fruit is of good size, sweet and delicious. **2-3 ft. trees, \$1.25 each; 2 for \$2.00.**

GOLD DUST. Extra early bloomer. Large deep yellow blooms on tall straight stalk. One of the finest new yellows. Used extensively as a yellow cut flower. Sell for \$1.00 a dozen stalks. **Price: 1½ inch size bulbs. Prices above.**

PICARDY. For many years this was rated No. 1 Gladiolus in the United States. Midseason. Soft shrimp-pink, clear and clean with a blotch of light flesh-pink which blends back into the main color. Single open florets measure 6 inches across, on a tall straight stalk. Perfect color and giant of them all. **Prices above.**

SNOW PRINCESS. This is one of the few all pure white Gladiolus. It's the best one. Tall grower. Large white flowers well faced on the stalk. Many open at one time, and 18 to 24 blooms on a stalk. A dozen of these snow-white beauties measuring 3 ft. tall in a vase, makes a magnificent sight. **Prices above.**

STOP LIGHT. Everybody loves a good red Gladiolus. Perhaps the most popular color of all. This bright red will open 18 to 20 florets on a stem. Very dependable. Tall growing. Midseason. **Prices above.**

RAINBOW MIXED

This Rainbow mixture is made up of our 6 named varieties that we list above and about 10 or 12 other beautiful varieties we do not list. Not a poor variety or color in the lot. All strong growing cut flower varieties blended into one lot, well mixed. This is not a lot of junk. Rather this mixture is grown just for this mixture. It's just as easy to grow good kinds as poor ones. You will be delighted when you see yours bloom. We offer 2 sizes in this mixture.

OF EACH
ONLY \$1.00

YELLOW CUSHION

Every one loves a Yellow Mum. Especially this one. It's a good bright yellow and blooms a week earlier than the rest of them. A thousand blooms open at one time on a well cared for plant is a common sight. It's impossible to see any leaves when this one comes into full bloom. You will have to see it to believe it.

BRONZE CUSHION

This one grows exactly like all the others. A large round plant if given room, and a solid row of blooms if planted in a border. Just hundreds of bronze blooms open at the same time. Blooms about the same time as the others. Requires little care, and this is one of the prettiest ones of the Cushion Mums. Order plenty of these at the low prices to the right.

Pink
Cushion

Red Cushion

PINK CUSHION

Here is an old favorite. It's the oldest one of the Cushion Mums, but one of the best. It makes a very large plant by early fall, a little larger than Red Cushion, and just as loaded with blooms, often hiding all leaves when fully in bloom. It's a sight in early September till late fall. We have a large stock of these Cushion Mums this year so are offering them to you at the low reduced prices to the left. All Cushion Mums make fine border plants. As a specimen plant you will have a mound of beauty as large as a bushel basket by the time it's fully in bloom.

RED CUSHION

Here is the Santa Claus of them all, with its fiery red color that blends in so well with the others. We show a single plant of the Cushion Mum in full bloom, 5 months after set, and with over 500 blooms, and some buds. Starts to bloom in September and will not stop till killing frosts in late fall. Fine for borders and beds. Also specimen plants like the one we show above. Plants last several years, and should be taken up and separated after the second year. One plant will make 25 new ones. What a bargain at the low price we are asking for these plants. **Prices to left.**

WHITE CUSHION

No collection of Cushion Mums would be complete without a white one. It's so dainty and fine featured. A faint tinge of lemon-yellow will show near the center, which makes it more beautiful than ever. Grows to a large plant by fall, when in full bloom. Hundreds of blooms open at the same time.

Pfitzer's Juniper

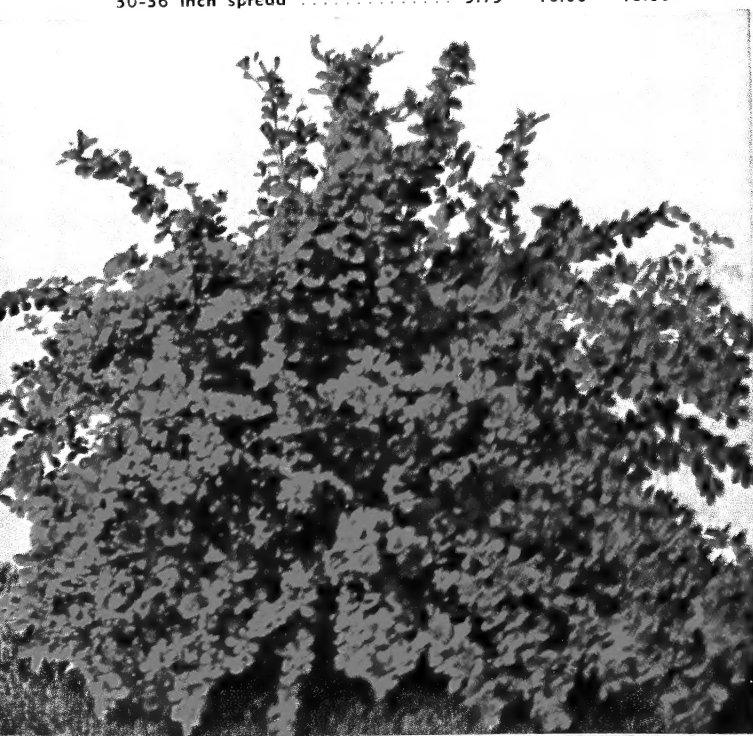

Savin Juniper

SAVIN JUNIPER

The favorite trailer—beautiful, dependable, and hardy everywhere. Dark green, tufted foliage covers dense, spreading branches, producing an ideal plant for the foreground, and giving the finest sort of finish to foundation groups, park or formal beds. It endures smoky conditions of the city, and is at home everywhere. You will be well pleased with our fine specimens. Seldom over 3 feet high at maturity.

	PRICES	Each	2	4
18-24 inch spread	\$3.75	\$ 7.00	\$12.00
24-30 inch spread	4.75	9.00	17.00
30-36 inch spread	5.75	10.00	18.00

PFITZER'S JUNIPER

This is one of the most popular Junipers. Spreading type, very hardy. Grows anywhere, even in shade. Wet or dry. Silvery green foliage. Good Pfitzer's Junipers are very scarce so order early to avoid disappointments.

PRICES

Black Hills Spruce

RED BARBERRY

Same as green Barberry except that the foliage is bright red. Stays red all summer and followed by red berries in the fall. Plant 18 inches apart. Fine to plant near or around evergreens to discourage dogs, also adds some color to a landscape job. See back cover for picture. This will give you an idea how to plant. These red Barberry have been sheared into a ball shape. **Prices: Strong 18-24 inch plants, 75c each; 3 for \$2.00. Less Discounts.**

PRUNUS PISSARDI

This is the purple leaf Plum. Beautiful white blooms in the spring. However, this tree will not bear fruit. It's strictly an ornamental. **2-3 ft. trees, each \$1.25; 2 for \$2.00. Less Discounts.**

EVER

WE RECOMMEND

We recommend express shipments of your order as the best way. Express is automatically insured, and is a very safe and fast way to ship. Let us use our own judgment on shipping your order. Most places have free delivery service to your door. Plants stuffed in tight mail bags do not arrive so well after April 25th.

GREENS

for Beauty ALL YEAR!

GRACEFUL EVERGREENS. There is nothing that will add as much beauty and distinction to a home as will some of our beautiful evergreens. We are offering just the right size healthy, field-grown trees that will start right out to grow, and add dollars of value to your place as the years go by. On back cover you will find the collection of evergreens illustrated. You will save money by buying this collection. **Price is only \$19.95. No Discounts.**

COLORADO BLUE SPRUCE

We are offering Baby Colorado Blue Spruce since they can be shipped without B&B, and arrive in perfect growing condition. See picture at right. No description is necessary. Will grow anywhere.

	PRICES	Each	2	4
10-12 inch	\$2.00	\$3.75	\$ 7.00
12-15 inch	2.50	4.75	8.50
15-18 inch	3.00	5.50	10.00

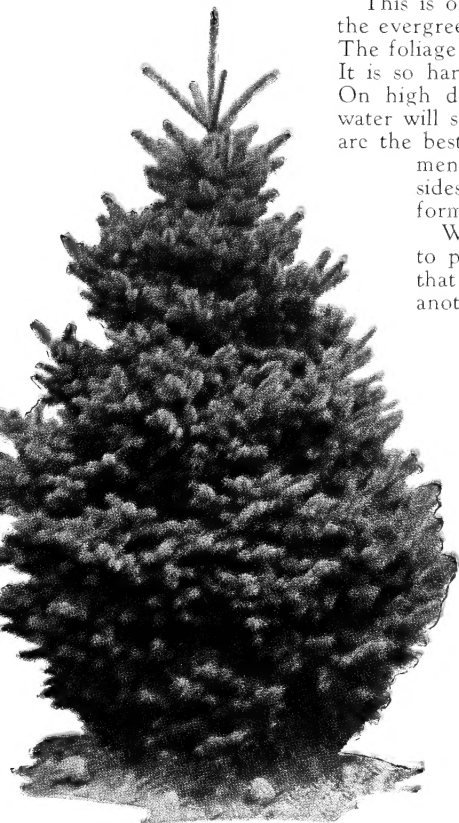

LESS DISCOUNTS

NORWAY SPRUCE

This is one of the easiest and fastest growing of all the evergreens, and also one of the most beautiful ones. The foliage is dark green throughout the whole season. It is so hardy and thrifty that it will grow anywhere. On high dry yellow sand, or on low ground where water will stand part of the year. For windbreaks that are the best, also for Christmas trees, as well as orna-

mentals. Makes a beautiful driveway when planted on both sides. Will stand trimming, and if the head is cut out, can be formed into a round ball.

We are offering several sizes at prices that you will not want to pass up. We intend to sell our entire stock this spring, so that no doubt this offer at these prices will not appear again in another year.

Norway Spruce

We recommend you have us ship your order by express. It's automatically insured, and we feel it's a better method. Often small better method. Often small mail bags and soon overheat.

UPRIGHT GROWING YEW (Hicksi)

Will thrive in full shade or full sun. Grows upright, shrub-like. Not too narrow. Fine for corner plantings, or between windows. Can be pruned to most any shape, or will stand cutting back if it should become too large for the place it is in. Its dark green foliage, with its lighter new growth, makes it about the prettiest of all evergreens. Very hardy and tough. Does well in sand or hard ground, wet or dry. Lasts many years, and never seems to need replacing.

Spread	Each	2	4
